To His Excellency
Governor James G. Martin
Raleigh, North Carolina

Dear Sir:

In compliance with Article 4, Section 90-57 of the General Statutes of North Carolina, we are pleased to submit to you and to the North Carolina Pharmaceutical Association the One-Hundred-Sixth Annual Report of the North Carolina Board of Pharmacy. This report contains the proceedings of the Board for the fiscal year ending September 30, 1987.

Respectfully yours,

NORTH CAROLINA BOARD OF PHARMACY
David R. Work, Executive Director

During the 1986-87 fiscal year the Board of Pharmacy adopted its policy on impaired pharmacists. This position was communicated to the pharmacists of the state in the April, 1987 Board Newsletter. The policy appears below:

THE IMPAIRED PHARMACIST

The North Carolina Board of Pharmacy has the gravest concern regarding the problem of the impaired pharmacist. The Board feels that steps should be taken to provide counselling, professional advice, as well as guidance and information for pharmacists with drug and alcohol problems. It is axiomatic to any type of treatment or informational program that the anonymity of the individuals seeking assistance be maintained. Dealing with this problem is not a responsibility of the Board of Pharmacy. The Board can only consider the impaired pharmacist on a case by case basis when there has been an alleged violation of law or regulation. The Board feels that this is an appropriate problem for the North Carolina Pharmaceutical Association. It notes that other professional associations provide a mechanism for rendering assistance to its members.

The Board, on the other hand, is confronted with the impaired pharmacist who is alleged to have violated a law or regulation. Assuming that the competent evidence introduced at the hearing satisfies the Board that the pharmacist is guilty as charged, there are a number of factors which the Board may consider in reaching a decision. The Board feels that the pharmacy profession and the general public are entitled to know what those general factors are and why the Board considers them to be significant in reaching a decision in an individual case.

There are certain mitigating factors.

First, whether this is the first time the pharmacist has been charged;

Second, the gravity of the offense, such as insignificant shortages of drugs which are diverted for the sole use of the pharmacist;

Third, the pharmacist acknowledged his responsibility for the shortages at an early stage in the investigation and assisted investigating officers thereafter;

Fourth, the pharmacist is aware and acknowledges his drug or alcohol problem or dependency and has independently sought effective assistance prior to the hearing and the positive attitude the pharmacist has towards recognizing the problem and rehabilitation;

Fifth, there is evidence that the pharmacist is taking

positive steps to control the problem and there is not a substantial likelihood that the offense or violations will be repeated in the future;

Sixth, the history of the pharmacist including his activities in his profession and community;

Seventh, the psychological harm which might result from a revocation or long term suspension of the pharmacist's license.

These are not all but some of the major mitigating factors which the Board considers in reaching a decision.

Some of the aggravating factors which the Board considers are as follows:

First, the severity of the offense. This includes, but is not limited to, whether there are substantial shortages over a long period of time, falsifying records or concealment of offense;

Second, whether the drugs illegally obtained by the pharmacist were diverted not only to his use but to the use of any third person;

Third, whether there is a history of prior offenses;

Fourth, the refusal of the pharmacist to acknowledge that a problem exists and past unwillingness to seek effective help or assistance;

Fifth, the likelihood that the pharmacist will in the future continue to violate the law and regulations of the Board;

Sixth, the likelihood that the pharmacist will continue to be a hazard to the general public health.

The presence of one or more mitigating factors and the absence of any aggravating factors usually results in a stay of the suspension of a license thereby producing a period of probation. It is the Board's desire to give an offending pharmacist who has a drug or alcohol problem an opportunity to prove that the problem is being resolved. Often the Board will require unannounced urinalysis tests and have the Board's investigators and inspectors routinely check to see that the pharmacist is abiding by the terms of the Board's judgment which often includes a direction to continue effective help, counselling or attending AA meetings.

If there are one or more aggravating factors present with the absence of any mitigating factors, the Board generally will impose a more severe judgment, possibly including the

revocation of a license.

The Board considers the above approach to be consistent with that mandated by the North Carolina General Assembly and the people of North Carolina in the establishment of the fair sentencing program. The Board feels that it is also consistent with prior decisions of the Board. This is a fair and equitable approach consistent with the maintenance of the Board's duty to protect the public health.

Occasionally Board members hear complaints from pharmacists (but rarely from the general public) that the Board should revoke the license of any pharmacist who has been caught illegally using drugs under his supervision and control and/or being present at a pharmacy while impaired by drugs or alcohol. The Board feels that this would be a harsh, uncompromising and counterproductive approach. Occasionally the Board will have before it a pharmacist who has voluntarily notified the Board of drug or alcohol dependency. While the Board would hope that eventually a source of assistance and information can be established by the Association, in the absence of such a program, the Board is put in the position of having to try to assist such pharmacists and to support them in their efforts to seek a cure or resolution of their personal problem. To automatically revoke that pharmacist's license would be contrary to what is in the best interest of the general public, to the profession and to the individual pharmacist.

New Inspector

Pursuant to the direction of the members of the Board Mr. James Kenneth Wilkins was added as a Board Inspector in October of this year. Ken is a native North Carolinian and an alumnus of Appalachian State University. He comes to the Board after two years of experience with the United State Marshall's Service and the Board is pleased to have a person with his dedication and expertise on the staff.

Inquiry of Federal Trade Commission

During this fiscal year the Board received its first inquiry from the Federal Trade Commission on regulations involving prescriptions by mail and Prescriptions, Receiving and Dispensing or prescription dropoffs. During this year the Members gave this issue considerable thought and discussion but the matter was not resolved.

Health Department Rules

After many years of discussion and consideration the Board considered rules for registered nurse dispensing in health departments. During 1986-87 the Board adopted rules for dispensing in health departments and they appear below.

SECTION .2400 - DISPENSING IN HEALTH DEPARTMENTS

.2401 MEDICATION IN HEALTH DEPARTMENTS

A registered nurse employed by a local health department may dispense prescription drugs and/or devices under the following conditions:

- (a) Drugs and/or devices may be dispensed only to health department patients;
- (b) No drugs and/or devices may be dispensed except at health department clinics;
- (c) The health department shall secure the services of a pharmacist-manager who shall be responsible for developing and supervising a system of control and accountability of all drugs dispensed from the health department;
- (d) Only the general categories of drugs and/or devices listed in Section .2403 may be dispensed by a health department registered nurse;
- (e) All drugs and/or devices dispensed pursuant to G.S. 90-85.34A, and these rules shall be packaged in suitable safety-closure containers, where appropriate, and shall be properly labelled (including necessary auxiliary labels) so as to provide information necessary for use and all other information required by state and federal law;
- (f) The pharmacist-manager and registered nurse shall comply with all provisions of state and federal laws governing the dispensing of medications;
- (g) A suitable and perpetual record of drugs and/or devices dispensed shall be maintained in the health department. The pharmacist-manager shall verify the accuracy of the records at least weekly, and where health department personnel dispense to 30 or more patients in a 24 hour period per dispensing site, the pharmacist-manager shall verify the accuracy of the records within 24 hours after dispensing occurs;
- (h) All drugs and/or devices shall be stored according to federal requirements as set out in the most recent United States Pharmacopeia.
- (i) The duties of the pharmacist-manager set out in paragraphs (a) through (h) above may be delegated to a pharmacist licensed by the North Carolina Board of Pharmacy who has completed the necessary training set out in Rule .2402. The pharmacist-manager shall remain personally responsible for compliance with all statutes, rules, and regulations governing the practice of pharmacy and dispensing of drugs.

History Note: Statutory Authority G.S. 90-85.6;
90-85.34A;
Eff. March 1, 1987.

.2402 TRAINING OF HEALTH DEPARTMENT NURSES: PHARMACIST MANAGERS

No registered nurse may dispense drugs or devices, nor may the

pharmacist-manager perform any duties pursuant to G.S. 90-85.34A prior to satisfactory completion of training acceptable to the board. The board may require registered nurses and pharmacist-managers to complete additional training regarding substantive changes in the law governing labelling and packaging of prescription drugs and devices.

Proposed curricula for initial training for registered nurses and/or pharmacist-managers secured by health departments must be submitted to the board for its approval no later than 60 days prior to the date training is to commence. No registered nurses or pharmacist-managers may be enrolled in any such proposed training course until written board approval is obtained. Initial training must include, but need not be limited to, instruction in labelling and packaging of prescription drugs and devices.

Written proposals shall be sent to the board's offices, and shall include the following information:

- (a) description of topics or courses to be covered;
- (b) instructor for each topic or course, and his or her qualifications and credentials;
- (c) anticipated duration of each topic or course.

History Note: Statutory Authority G.S. 90-85.6;
90-85.34A;
Eff. March 1, 1987.

.2403 DRUGS TO BE DISPENSED

Pursuant to the provisions of North Carolina General Statute 90-85.34A, prescription drugs included in the following general categories may be dispensed by registered nurses in local health department clinics when prescribed for the indicated conditions:

- (a) Anti-tuberculosis drugs, as defined by Facts and Comparisons, or as recommended by the Tuberculosis Control Branch of the North Carolina Division of Health Services, when used for the treatment and control of tuberculosis;
- (b) Anti-infective agents used in the control of sexually transmitted diseases as recommended by the United States Centers for Disease Control;
- (c) Natural or synthetic hormones and contraceptive devices when used for the prevention of pregnancy;
- (d) Vitamin and mineral supplements;
- (e) Topical preparations for the treatment of lice, scabies, impetigo, diaper rash, vaginitis, and related skin conditions;
- (f) Over-the-counter drugs or preparations.

Regardless of the provisions set out above, no drug defined as a controlled substance by the United States Controlled Substances Act, 21 U.S. Code s. 801, et seq., or regulations enacted pursuant to that Act, 21 CFR s. 1300, et seq., or by the North Carolina Controlled Substances Act, G.S. 90-86 through 90-113.8, may be dispensed by registered nurses pursuant to G.S. 90-85.34A.

History Note: Statutory Authority G.S. 90-85.6;
90-85.34A;
Eff. March 1, 1987.

Board Member Election

The annual election for at least one member of the Board occurred during 1987 among candidates Mr. Bill Randall, Mr. Jim Clow, Mr. Bill Scarboro and Mr. George Willets. The ballots were counted prior to the June meeting of the Board and Mr. Randall received a majority of the votes and was declared elected at that meeting. Mr. Randall will serve a three year term beginning in the Spring of 1988.

Approval of Campbell Clerkship

Dean Ronald Maddox presented the clerkship program at Campbell University to the Members of the Board at their July, 1987 meeting. After a thorough review of their program it was the decision of the Board to approve their program for obtaining all 1500 hours of practical experience as required by Board regulation for admission to the Practical Exam.

Information Required by GS 93B

The North Carolina Board of Pharmacy has its offices at 602H Jones Ferry Road in the Willow Creek Shopping Center in Carrboro for the period of October 1, 1986 through September 30, 1987. During the 1986-87 fiscal year there were 180 applicants for examination, 1 was refused admission to the exam and the remainder took the examination for licensure. A total of 169 persons were licensed as pharmacists by examination during this year while 172 individuals applied for licensure by reciprocity and were licensed. The Board suspended 6 licenses during this year and revoked 6 licenses. No other licensees were terminated for any reason other than failure to pay the required renewal fee.

REPORT OF CERTIFIED PUBLIC ACCOUNTANTS

Governor James G. Martin
North Carolina Board of Pharmacy
The General Assembly of North Carolina

We have examined the balance sheet of the North Carolina Board of Pharmacy as of September 30, 1987 and 1986, and the related statements of revenues and expenditures and changes in fund equities for the years then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion the financial statements referred to above present fairly the financial position of the North Carolina Board of Pharmacy at September 30, 1987 and 1986, and the results of its operations and changes in its financial position for the year then ended, in conformity with generally accepted accounting principles.
